Q.77 Arrange the following sentences logically.

P = Hurricanes are steered by the winds around them.
Q = To understand how a hurricane is likely to behave, forecasters need to know what's going on in the atmosphere far from the Atlantic and Gulf coasts.
R = Satellites can't take direct measurements, so to measure these winds, scientists rely on weather balloons.
S = Wind patterns detected today over the Rocky Mountains and Great Plains — places like Colorado, Wyoming, Nebraska and South Dakota — give forecasters clues to the winds that will be likely along the Gulf and Atlantic coasts in the days ahead.

- Ans
- ☒ 1. PSRQ
 - ☒ 2. RQSP
 - ☒ 3. QPSR
 - ☒ 4. SQPR

Comprehension:

Read the given passage carefully and answer the questions that follow.

Rani Lakshmibai of Jhansi was one of the most prominent leaders during the Indian Rebellion of 1857 against the British rule. She was born in 1828 in Varanasi and was named Manikarnika Tambe. After her marriage to Gangadhar Rao, the Maharaja of Jhansi, she became the queen. Following the death of her husband and the rejection of her adopted son's claim to the throne by the British authorities, she decided to resist. In 1858, she led her troops into battle, defending Jhansi with remarkable courage. She later joined forces with Tatya Tope and continued the struggle. Despite facing superior enemy forces, she refused to surrender and fought bravely until her death near Gwalior in June 1858. Her leadership and sacrifice made her a lasting symbol of resistance and patriotism in Indian history, inspiring generations to value freedom and courage in times of struggle and adversity across the nation, even today. Among young learners and scholars alike, who study her life in detail through historical records and documented narratives from various sources across regions of India and beyond for academic understanding and cultural awareness purposes worldwide, her story continues to be widely taught and remembered in educational contexts everywhere globally.
