PART - 3
GENERAL ENGLISH

Direction for Q. No. 56 to 63.

Read the passage and answer the questions given :

The object of economic development is the improvement of the level of crores of our countrymen. This means having a bigger and bigger supply of food, clothes, housing and such other things and greater facilities for medical care, education and cultural growth, that is, having more and more of what economists call consumer goods and services. Our aim, then must be to increase continually the production of consumer goods.

How can this be done ? To some extent by using traditional methods of production, such as weaving and handicrafts and by employing idle hands to the fullest possible extent. This would give employment to millions of our countrymen who are sitting idle for the whole or a good part of the day for lack of gainful work. But this can go only part of the way.

To increase production in a really big way, we must use machinery. For eighty or ninety years or more we have been manufacturing cloth in textile factories. Where did we get the machinery for this purpose ? We have been importing it from abroad. Why ? Because we did not have factories to produce machinery. This brings us to the heart of the problem.

Machinery is made of steel and other metals. The cost of such materials is small and is often only ten or fifteen percent of the price we pay to purchase the machinery from abroad. If we use our own steel and raw materials and make the machinery ourselves, we can have much more than what we can purchase from abroad. Obviously then, we must set-up factories to manufacture heavy electrical and other equipment.

56. "This brings us to the heart of the problem". Which is the problem mentioned in third paragraph ?

- (A) The problem of giving employment to millions of our countrymen.
- (B) The problem of not producing machinery locally in order to increase production in a big way.
- (C) The problem of increasing the production of consumer goods.
- (D) The problem of improving the level of living of crores of our countrymen.

57. How can the production of clothes be increased ?

- (A) By importing machines from abroad.
- (B) By buying materials from other countries.
- (C) By increasing the manpower.
- (D) By setting up factories to make machines ourselves.

Direction for Q. No. 64 to 70.

Read the passage and answer the questions based on it.

Mountaineering is now looked upon as the king of sports. But men have lived amongst the mountains since prehistoric times and in some parts of the world, as in the Andes and Himalayas, difficult mountain journeys have inevitably been part of their everyday life. While some of the modern mountaineers prefer difficult routes for the greater enjoyment of sport, the early climbers looked for the easiest ones, for the summit was the prize they all set their eyes on.

In the risky sport of mountaineering, the element of competition between either their individuals or teams is totally absent. Rather one can say that the competition is between the team and the peaks themselves. The individuals making up a party must climb together as a team, for they depend upon one another for their safety. Mountaineering can be dangerous unless reasonable precautions are taken. However, the majority of fatal accidents happen to parties which are inexperienced or not properly equipped. Since many accidents are caused due to bad weather, the safe climber is the man who knows when is the time to turn back, however, tempting it may be to press on and try to reach the summit.

87. A child mentally calculated $27 + 38$ as 65. When he was asked to explain his method of addition, he responded that 38 is near to 40 so $27 + 40$ is 67, then I subtracted 2 to get 65. This strategy of addition is :
 (A) Direct Modelling
 (B) Regrouping
 (C) Incrementing
 (D) All of the above
88. Some students of class II, face difficulty in the addition of two digit numbers involving 'carrying over'. Reason behind this problem is lack of :
 (A) Understanding of difference between face value and place value.
 (B) Understanding the importance of zero.
 (C) Understanding of regrouping process.
 (D) Interest in Mathematics.
89. At the primary level, use of Tangram (Chinese Puzzle), dot games, patterns etc. helps the student to :
 (A) Enhance spatial understanding ability.
 (B) Develop sense of comparing numbers.
 (C) Strengthen calculation skills.
 (D) Understand basic operations.
90. What is the difference of place value and face value of 4 in the number 536478 ?
 (A) 360
 (B) 396
 (C) 440
 (D) 404
91. Volume of a solid box of length 2 meter, breadth 50 cm and height 100 millimeter is :
 (A) 10^5 cm^3
 (B) 10^4 cm^3
 (C) 10^5 m^3
 (D) 10^5 mm^3
92. A Mathematics teacher, assigns a lot of survey-based projects to mathematics classrooms. The purpose of such activity is :
 (i) to promote problem-solving skills.
 (ii) to give an opportunity to students to collect authenticated data.
 (iii) to break the monotony of class.
 (iv) to use it as an alternate assessment.
 Which of the above purposes are true ?
 (A) (i), (ii) and (iii)
 (B) (i) and (ii)
 (C) (i) and (iii)
 (D) (i), (ii) and (iv)
93. If 1st May 2019 was Wednesday, then what was the day on 12th May 2016 ?
 (A) Wednesday
 (B) Sunday
 (C) Thursday
 (D) Friday
94. If $3 - 2x^2 - 5 + 52 = 0$, then $x =$
 (A) ± 5
 (B) ± 1
 (C) 0
 (D) 5

95. If 0.0b% of $a = c$, then what % of c is a ?

- (A) b
- (B) $\frac{10^6}{b}$
- (C) $\frac{b}{10^4}$
- (D) None of these

96. $\sqrt{625.0025} =$

- (A) 25.005
- (B) 25.05
- (C) 25.0005
- (D) 25.00005

97. A given rectangle and a parallelogram have the same area. However, many students respond that the parallelogram has a larger area. How can a teacher help the students to understand that their areas are the same ?

- (A) Using scale
- (B) Using a geoboard
- (C) Using a graph paper
- (D) Using paper folding

98. If $x : 3 :: 4 : 5$, then $x =$

- (A) 12
- (B) $\frac{12}{5}$
- (C) $\frac{5}{12}$
- (D) None of these

99. Evaluation should be done in teaching of Mathematics :

- (A) At the time of providing learning experiences.
- (B) At the time of clarification of learning objectives.
- (C) After the clarification of learning objectives and providing the learning experiences.
- (D) All of the above.

100. If following fractions are arranged in ascending order, then the third fraction from the end is :

$$3\frac{2}{5}, 5\frac{2}{3}, 2\frac{3}{5}, 3\frac{5}{2}, 5\frac{3}{2}, 2\frac{5}{3}$$

- (A) $5\frac{2}{3}$
- (B) $3\frac{5}{2}$
- (C) $3\frac{2}{5}$
- (D) None of these

101. The method based upon real thinking, experiments and inspection is :

- (A) 25
- (B) 0
- (C) 3
- (D) None of these

105. Which of the following is **not** a contributing factor responsible for mathematics anxiety ?

- (A) Nature of subject
- (B) Gender
- (C) Examination system
- (D) Curriculum

106. If a man travels a certain distance with the speed of x km/hour and the same distance with the speed of y m/second, then the average speed of whole journey is :

- (A) $\frac{2xy}{x+y}$ m/second
- (B) $\frac{5xy}{9(1000x+y)}$ m/second
- (C) $\frac{5xy}{9(x+y)}$ m/hour
- (D) None of these

107. If L =loss, l =loss %, P =profit, Pr =profit %, C =cost price and SP =selling price, then which of the following is **not** correct ?

- (A) $L = \frac{l \times 100}{Pr \times C}$
- (B) $Pr = \frac{P \times 100}{C}$
- (C) $SP = C + P$ or $SP = C - L$
- (D) $L \times 100 = C \times l$

108. Length of diagonal of a cube is $10\sqrt{3}$ cm. Then its volume is :

- (A) 1000 m^3
- (B) 0.01 m^3
- (C) 0.001 m^3
- (D) None of these

109. The difference between the place value of 5 in 27503 and the face value of 7 in 42073 is :

- (A) 430
- (B) 43
- (C) 2
- (D) 493

110. A teacher of class I asks a student to count the total number of objects in a collection of pens, erasers and sharpeners. The student puts all the objects in a line and starts counting. He says that there are 2 pens, 5 erasers and 3 sharpeners instead of 10 objects. In which principle/principles of counting do you think that the student is facing difficulty ?

- (A) Stable order and abstraction principles
- (B) One to one correspondence principle
- (C) Abstraction principle
- (D) Abstraction and order irrelevance principles
