Section : Section 1

Q.1 Which of the following best describes the focus of the National Guinea Worm Eradication Program?

- Ans**
- 1. Improving hospital-based treatments
 - 2. Promoting hand hygiene among public
 - 3. Interrupting the life cycle of the parasite in humans
 - 4. Providing malaria nets to public

Question Type : MCQ
Question ID : 4410091577806
Option 1 ID : 4410096232268
Option 2 ID : 4410096232269
Option 3 ID : 4410096232267
Option 4 ID : 4410096232270
Status : Answered
Chosen Option : 3

Q.2 During the management of a newborn, why is it important to examine both the extremities and the spine for defects?

- Ans**
- 1. To detect structural abnormalities and prevent complications
 - 2. To assess the baby's sleep patterns
 - 3. To measure the baby's growth rate
 - 4. To ensure normal feeding reflexes

Question Type : MCQ
Question ID : 4410091558392
Option 1 ID : 4410096155970
Option 2 ID : 4410096155971
Option 3 ID : 4410096155972
Option 4 ID : 4410096155969
Status : Answered
Chosen Option : 1

Q.3 What is the primary principle of autoclaving?

- Ans**
1. Chemical sterilization
 2. Incineration
 3. Dry heat sterilization
 4. Steam sterilization

Question Type : **MCQ**
Question ID : **4410091499916**
Option 1 ID : **4410095924551**
Option 2 ID : **4410095924553**
Option 3 ID : **4410095924550**
Option 4 ID : **4410095924552**
Status : **Answered**
Chosen Option : **4**

Q.4 Which of the following options best illustrates the multifactorial causation of disease as described in the epidemiological triad?

- Ans**
1. Rabies transmitted through the bite of an infected dog
 2. Diabetes mellitus resulting from genetic susceptibility, lifestyle factors, and environmental influences
 3. Tuberculosis caused only by Mycobacterium tuberculosis
 4. Tetanus developing after a puncture wound contaminated with spores

Question Type : **MCQ**
Question ID : **4410091519027**
Option 1 ID : **4410095999360**
Option 2 ID : **4410095999359**
Option 3 ID : **4410095999358**
Option 4 ID : **4410095999361**
Status : **Answered**
Chosen Option : **2**

Q.5 What is the primary method used to assess hydration status in infants?

- Ans**
1. Listening to heart sounds
 2. Asking about headache
 3. Measuring body mass index
 4. Checking the fontanelle

Question Type : **MCQ**
Question ID : **4410091577715**
Option 1 ID : **4410096231919**
Option 2 ID : **4410096231918**
Option 3 ID : **4410096231917**
Option 4 ID : **4410096231916**
Status : **Answered**
Chosen Option : **4**

Q.6 Which responsibility most clearly involves the nurse in planning for disaster preparedness in a community?

- Ans**
1. Organizing immunization drives for children
 2. Counseling individuals on stress management
 3. Arranging health camps for local residents
 4. Participating in mock drills with emergency teams

Question Type : **MCQ**
Question ID : **4410092571480**
Option 1 ID : **44100910108887**
Option 2 ID : **44100910108886**
Option 3 ID : **44100910108889**
Option 4 ID : **44100910108888**
Status : **Answered**
Chosen Option : **4**

Q.7 Which law is primarily concerned with protecting the rights of children in need of care and protection in India?

- Ans**
1. The Indian Penal Code
 2. Indian Termination Act
 3. The Child Labour Act
 4. The Juvenile Justice Act

Question Type : MCQ
Question ID : 4410091800011
Option 1 ID : 4410097097143
Option 2 ID : 4410097097145
Option 3 ID : 4410097097144
Option 4 ID : 4410097097142
Status : Answered
Chosen Option : 3

Q.8 Which of the following best describes a primary function of inflammation in the body's defense against injury?

- Ans**
1. To isolate and remove harmful agents
 2. To cause vasoconstriction
 3. To improve the movement of the injured part
 4. To decrease blood flow to the effected area

Question Type : MCQ
Question ID : 4410091557586
Option 1 ID : 4410096152642
Option 2 ID : 4410096152643
Option 3 ID : 4410096152644
Option 4 ID : 4410096152641
Status : Answered
Chosen Option : 2

Q.9 Which developmental milestone is typically achieved by an infant around 6 months of age?

- Ans**
1. Standing with support
 2. Walking with support
 3. Crawling without support
 4. Sitting with support

Question Type : MCQ
Question ID : 4410091799971
Option 1 ID : 4410097096983
Option 2 ID : 4410097096982
Option 3 ID : 4410097096985
Option 4 ID : 4410097096984
Status : Answered
Chosen Option : 4

Q.10 A couple visits a midwife for preconception counseling. The woman has a BMI of 32. What is the most appropriate advice to reduce pregnancy complications related to her weight?

- Ans**
1. Advise increased protein intake
 2. Begin prenatal vitamins
 3. Encourage weight loss before conception
 4. Recommend early glucose tolerance test

Question Type : MCQ
Question ID : 4410091799812
Option 1 ID : 4410097096357
Option 2 ID : 4410097096354
Option 3 ID : 4410097096356
Option 4 ID : 4410097096355
Status : Answered
Chosen Option : 3

Q.11 What is a key principle included in the code of ethics for nurses?

- Ans**
1. Focusing only on physical care
 2. Prioritizing administrative tasks
 3. Respecting patient confidentiality
 4. Ignoring patient preferences

Question Type : MCQ
Question ID : 4410091566278
Option 1 ID : 4410096186518
Option 2 ID : 4410096186517
Option 3 ID : 4410096186516
Option 4 ID : 4410096186519
Status : Answered
Chosen Option : 3

Q.12 A newborn is assessed at 1 minute with a heart rate of 110 beats per minute, slow and irregular breathing, some flexion of the extremities, a minimal grimace on stimulation, and a pink body with blue extremities. What is the Apgar score of this infant?

- Ans**
1. Ten
 2. Two
 3. Three
 4. Six

Question Type : MCQ
Question ID : 4410091697469
Option 1 ID : 4410096695614
Option 2 ID : 4410096695611
Option 3 ID : 4410096695612
Option 4 ID : 4410096695613
Status : Answered
Chosen Option : 4

Q.13 What is the most appropriate adjustment to make when transporting an injured person with a suspected spinal injury?

- Ans**
1. Keep the head, neck, and spine in alignment during movement.
 2. Elevate the legs slightly while transporting the person.
 3. Allow the person to walk if they feel able to stand.
 4. Move the person quickly to reduce time spent on the ground.

Question Type : MCQ
Question ID : 4410092571474
Option 1 ID : 44100910108863
Option 2 ID : 44100910108865
Option 3 ID : 44100910108864
Option 4 ID : 44100910108862
Status : Answered
Chosen Option : 1

Q.14 When a new vaccination policy is introduced by the Central Government, which level ensures that vaccines reach individual communities?

- Ans**
1. National level
 2. District level
 3. Central level
 4. International agencies

Question Type : MCQ
Question ID : 4410091570817
Option 1 ID : 4410096204246
Option 2 ID : 4410096204247
Option 3 ID : 4410096204248
Option 4 ID : 4410096204249
Status : Answered
Chosen Option : 2

Q.15 Which type of health need does the nurse frequently address as a primary consequence of the traumatic event during the disaster recovery phase?

- Ans**
1. Acute surgical emergencies and traumatic injuries
 2. Routine vaccination schedules for children
 3. Long-term rehabilitation for chronic diseases like diabetes
 4. Psychological distress, anxiety, and post-traumatic stress disorder

Question Type : MCQ
Question ID : 4410091506697
Option 1 ID : 4410095951141
Option 2 ID : 4410095951140
Option 3 ID : 4410095951139
Option 4 ID : 4410095951138
Status : Answered
Chosen Option : 1

Q.16 If a nurse observes that children in a patient's family are not attending school, which family function is lacking?

- Ans**
1. Economic function
 2. Health function
 3. Educational function
 4. Biological function

Question Type : MCQ
Question ID : 4410091769150
Option 1 ID : 4410096976349
Option 2 ID : 4410096976351
Option 3 ID : 4410096976350
Option 4 ID : 4410096976348
Status : Answered
Chosen Option : 3

Q.17 What is a key feature of effective communication in health education?

- Ans**
1. It relies on written reports
 2. It uses complex medical terms
 3. It involves feedback from the receiver
 4. It depends on one-way messages

Question Type : MCQ
Question ID : 4410092571491
Option 1 ID : 44100910108930
Option 2 ID : 44100910108931
Option 3 ID : 44100910108933
Option 4 ID : 44100910108932
Status : Answered
Chosen Option : 3

Q.18 Why might a health educator choose a flip chart over a blackboard for a community session?

- Ans**
1. Flip charts are portable and can be prepared in advance
 2. Flip charts are always larger than blackboards
 3. Flip charts must be used with a projector
 4. Flip charts are used for audio presentations

Question Type : MCQ
Question ID : 4410092571497
Option 1 ID : 44100910108957
Option 2 ID : 44100910108956
Option 3 ID : 44100910108955
Option 4 ID : 44100910108954
Status : Answered
Chosen Option : 1

Q.19 A biomedical report shows that ICU ventilators have the highest downtime despite timely preventive maintenance. As a nurse manager, which factor should you evaluate FIRST?

- Ans**
1. Staff competency in handling the equipment
 2. Vendor pricing history
 3. Warranty conditions of the ventilators
 4. Lead-time for spare parts

Question Type : MCQ
Question ID : 4410091524122
Option 1 ID : 4410096019771
Option 2 ID : 4410096019774
Option 3 ID : 4410096019772
Option 4 ID : 4410096019773
Status : Not Answered
Chosen Option : --

Q.20 Which practice most effectively reduces the risk of infection during biomedical waste handling?

- Ans**
1. Consistent use of personal protective equipment by staff
 2. Assigning waste handling to selected staff only
 3. Increasing frequency of waste collection rounds
 4. Using strong disinfectants on all waste materials

Question Type : MCQ
Question ID : 4410091576091
Option 1 ID : 4410096225150
Option 2 ID : 4410096225153
Option 3 ID : 4410096225151
Option 4 ID : 4410096225152
Status : Answered
Chosen Option : 1

Q.21 Which therapy is classified as a somatic therapy in mental health nursing?

- Ans**
1. Milieu therapy
 2. Family therapy
 3. Group psychotherapy
 4. Electroconvulsive therapy

Question Type : MCQ
Question ID : 4410091584200
Option 1 ID : 4410096258106
Option 2 ID : 4410096258105
Option 3 ID : 4410096258104
Option 4 ID : 4410096258103
Status : Answered
Chosen Option : 4

Q.22 Which of the following steps is the most critical in initial management of minor burns?

- Ans**
1. Apply ice directly to the burn.
 2. Apply butter or oil to soothe the burn.
 3. Cover the burn immediately with a dry cloth.
 4. Cool the burn with running water.

Question Type : MCQ
Question ID : 4410091772054
Option 1 ID : 4410096987797
Option 2 ID : 4410096987799
Option 3 ID : 4410096987798
Option 4 ID : 4410096987796
Status : Answered
Chosen Option : 2

Q.23 A swab taken from a diabetic patient's non-healing foot ulcer shows mixed bacterial growth on nutrient agar after incubation. What is the most appropriate next step to accurately identify the primary causative microorganism?

- Ans**
1. Add more nutrient agar
 2. Incubate at higher temperature
 3. Direct Gram stain
 4. Subculture on selective media

Question Type : **MCQ**
Question ID : **4410091820916**
Option 1 ID : **4410097178899**
Option 2 ID : **4410097178898**
Option 3 ID : **4410097178897**

Status : **Answered**
Chosen Option : **3**

Q.25 Which form are most inhalation medicines given in?

- Ans**
1. Tablet or capsules
 2. Aerosol or mist
 3. Liquid for oral use
 4. Injections of IM/SC

Question Type : **MCQ**
Question ID : **4410091579430**
Option 1 ID : **4410096239006**
Option 2 ID : **4410096239005**
Option 3 ID : **4410096239008**
Option 4 ID : **4410096239007**
Status : **Answered**
Chosen Option : **2**

Q.26 A patient exposed to organophosphorus compounds is having excessive salivation and muscle twitching. Which of the following is considered the most appropriate antidote for a patient presenting with organophosphorus poisoning in an emergency situation?

- Ans**
1. Acetaminophen
 2. Flumazenil
 3. Atropine
 4. Naloxone

Question Type : **MCQ**
Question ID : **4410092571479**
Option 1 ID : **44100910108882**
Option 2 ID : **44100910108885**
Option 3 ID : **44100910108884**
Option 4 ID : **44100910108883**
Status : **Answered**
Chosen Option : **4**

Q.27 Which part of the cardiac conduction system acts as the natural pacemaker of the heart?

- Ans**
- 1. SA Node
 - 2. Purkinje fibers
 - 3. Bundle of His
 - 4. AV Node

Question Type : MCQ
Question ID : 4410091518847
Option 1 ID : 4410095998667
Option 2 ID : 4410095998669
